COMPLETE CONNECTOR ASSEMBLIES

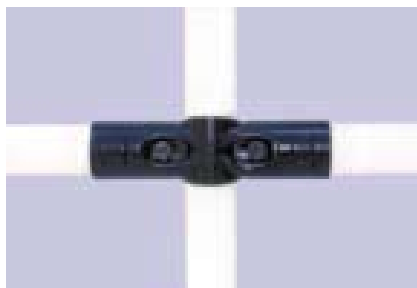

G1 - Tee 90
(C1 + C1 + N&B)

G2 - Elbow
(C2 + C3 + 2N&B)

G3 - 4-Way Cross
(C4 + C2 + C2 + 3N&B)

G4 - 3-Way Cross
(C4 + C4 + 2N&B)

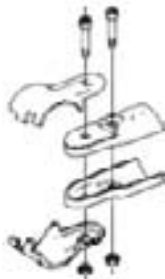

COMPLETE CONNECTOR ASSEMBLIES (CONT'D)

G5 - 5-Way Cross
(C2 + C2 + C2 + C2 + 4N&B)

G6 - Offset
(C9+ C9 + N&B)

G7 - Swivel Tee
(C7 + C7 + C6 + C6 + 2N&B)

G8 - Parallel
(C8 + C8 + N&B)

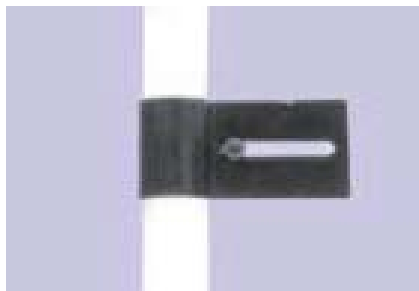

COMPLETE CONNECTOR ASSEMBLIES (CONT'D)

G9 - Straight w/ Swivel
(C5 + C5 + C7 + C7 + C7 +
C7 + 4N&B)

G10 - Angle 45
(C10 + C10 + N&B)

G11 - Grooved
(C11 + C11 + N&B)

Tubing

TUBE COLOR VARIETY

Blue Green Red Orange Yellow White
 Grey Charcoal Black Galvanized

Part numbers for all pipes are **E-4000-(color)**

Example: E-4000-GREEN

Standard tube length is 4 meters

Galvanized
G-4000

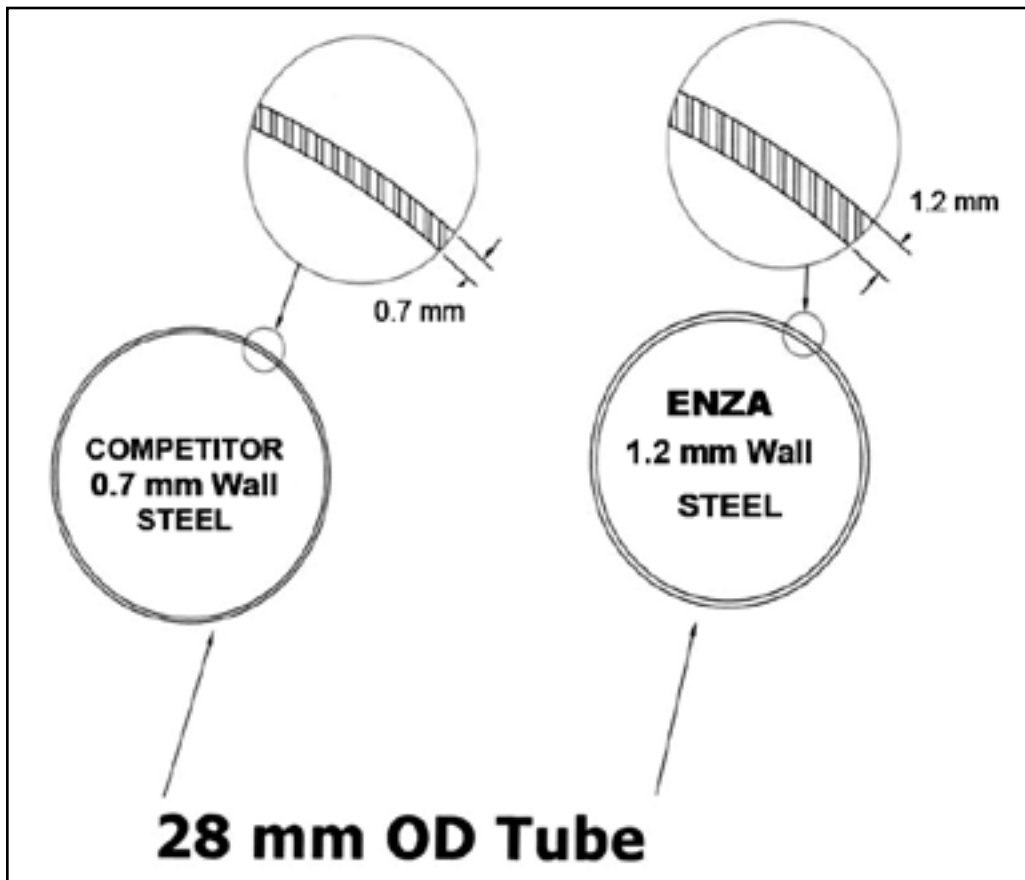

Slide Tube
S-4000

Standard Slide Tube length is 4 meters

TUBE DIAMETER & WALL THICKNESS

Increased wall thickness offers greater load capacity over the leading competitor.

Wood Shelving

TOOLS FOR CONSTRUCTION

Rubber Mallet

Tape Measure

Cordless Impact

Chop Saw

Using these tools with the Enza components will make the the construction of a structure easier, faster, and more consistent. The mallet insures that joints and end pieces fit tightly. The tape measure keeps all cut pieces consistent so that the structure maintains the proper proportions. The cordless impact insures that all nuts and bolts are securly tightened. The chop saw insures that all cut pieces are cut cleanly and straight. All of these tools can be purchased at local home construction stores or online.

Enza Systems does not promote any specific brand of tools - just the type of tool for reference purposes.
